

Jonas Blue, Rest Of My Life - feat. Sam Feldt, Endless Summer, Sadie Rose Van

I found my ride or die up in the shadows
At first it made me cry, hit by an arrow
Yeah it struck me so deep in the heart
Broke [?] in the dark
I found my ride or die, chased away my sorrows

And all of my words will never be enough
So I'm gonna show you what I mean to tell you
I'm gonna love you for the rest of my life

I'm gonna love you for the rest of my life
And I'm gonna hold you as you fall asleep at night
I'll be left by your side 'til the break of day
And I'll dance with you here in the rain
'Cause I'm gonna love you for the rest of my life

Rest of my
I'm gonna love you for the rest of my life
Rest of my
I'm gonna love you for the rest of my life

Ain't much in this world that we can't face together
I'll always be your girl, no matter what the weather
Oh 'cause the lightning struck me through the heart
And we're burning bright here in the dark
There ain't much in this world that we can't face together

I'm gonna love you for the rest of my life
And I'm gonna hold you as you fall asleep at night
I'll be left by your side 'til the break of day
And I'll dance with you here in the rain
'Cause I'm gonna love you for the rest of my life

Rest of my
I'm gonna love you for the rest of my life
Rest of my
I'm gonna love you for the rest of my life
Rest of my
