

# Jordin Sparks, Call My Name

Sometimes, I feel weak  
Sometimes, I'm exhausted  
Sometimes, I feel vulnerable  
Say to myself, "You on your own"  
Sometimes I weep  
'Cause I feel so lost, you know  
Like, I don't know where to go  
That's until you

You call my name, name, name  
You call my  
You call my name  
And I feel strong enough to move a building  
You can call on me, fall on me  
Feel like I can take on anything when you  
You call my name

You gently came and broke down all my walls, ooh  
And dealt with me so patiently  
Self sabotaged, but you never leave at all  
This love is yours  
There's nothing more that I want  
So close the door  
I'm livin' for those sweet echoes through the corridor

When you call my name, name, name  
You call my name  
You call my name  
And I feel strong enough to move a building  
You can call on me, fall on me  
Feel like I can take on anything when you  
You call my name

You, ooh, ooh  
Mmm  
I'm so blessed that you got faith in me  
Open up my mind so I can see  
You  
You're every single thing I'd dreamed you'd be

And I believe it 'cause you call my name, name, name  
When you call my name  
You call my name  
And I feel strong enough to move a building  
You can call on me, fall on me  
Feel like I can take on anything when you  
You call my name

When you, you call my name  
You call my name  
You call my name  
You call my
