

# Justin Bieber, Intertwine (Ft. Lil Twist)

What's the use to being lonely?  
When I'm offering my company  
You could be my lover, hold me  
I'll give you attention all night, all day  
Intertwine, we can intertwine  
We should make some sign  
So I can intertwine, with you

Had the whole hood shook when you moved in  
Face like a goddess, body on ten  
Had to be back in the crib before the streets lights  
That was back when you wouldn't like to have friends  
Now you grown up features all swole up  
Seen you at the club had me like hold up  
What you doing', who you with, what you sippin' on? (sipping on)  
Who you doing, where you being, let me take you home  
And if you want we can stop at the Waffle House  
I'm on the shit it's whatever that you talking 'bout  
Take that time to get to know me  
Cause baby what's the use of being lonely?

What's the use to being lonely?  
When I'm offering my company

We could intertwine, just let me get behind  
And watch me run up in this thing like the finish line  
To end it like it's Christmas time  
I eat it like it's been a time  
She said let's do it like at 86  
I said let's do it like 69  
Give her a bit a this it ain't no way she getting tired  
Introduced to the molly now she's amp'd and she's wired  
Get her back to the room she said Twizzy is who I desire  
I said let's get in the shower girl that ass is on fire  
I pay you with attention direct a positive wire  
That shit don't need even matter as long as love transpires  
And after all that, baby you should really know me  
Now you ain't got never be lonely
