

# Justin Bieber, Madly in love

Love is in the air, candles all around us  
There's no need to see, nothin', nothin'  
Baby I'm urs, urs until foreva  
Cos' u know that I would neva eva want this to change

It's all about the magic  
All about the madness in ur eyes  
Madly in luv, yeah, it's all about the magic  
All about the madness in ur eyes  
Madly in luv, madly in luv, babe  
Madly in luv (Madly in luv)  
(Madly in luv, madly in luv)  
Madly in luv (Madly in luv)  
(Madly in luv, madly in luv)

Babe, u are the reason to breathe, & babe, u know u're all that I need  
Remember when u took my hand & ran away (it was just us two babe)  
And wandered off to Chinatown, laughin' bout nothin' at all  
When I look into ur eyes

Love is in the air, candles all around us  
There's no need to see, nothin', nothin'  
Baby I'm urs, urs until foreva  
Cos' u know that I would neva eva want this to change
