

Justincase, Feel

You're gone, and I don't wanna know, what went wrong, no
Cause somewhere the words have really helped me sleep
And honest, the tongue that tells me how you mean
Is anyone out there? It feels like I'm holding on
Is anyone out there? yeah, yeah
And I was scared to lose you, but now I'm fine without you
Just see if I've, just see if I flinch
How does it feel? How does it feel? How does it feel to know you're on your own?
On your own, own, without me on your own
I filled the space you left with something else, more real
The smile you faked made me stay
Is anyone out there? It feels like somethings wrong
Is anyone out there? yeah, yeah
And I was scared to lose you, but now I'm fine without you
Just see if I've, just see if I flinch
How does it feel? How does it feel? How does it feel to know you're on your own?
On your own, own, without me on your own
And its a long road without you
But its the right way to move on
And its a long way to the top of nothin', yeah
I feel lovin, you're halfway there
How does it feel? How does it feel? How does it feel to know you're on your own?
On your own, own, without me on your own
Feel, how does it feel, how does it feel to know you're on your own
(Feel, Feel, Feel)
so look the way your lips... you're the only one that likes to play it all alone
so low, you get so low
i just want to be there when you're everywhere, disappear
In the back of my mind, I find that I'm fine, I'm fine, and I'm finally all right
Alone and you'll be alone, there's never gonna be a time when you find your peace of mind
(Feel, Feel, Feel)
