JVKE, clouds

I'm down bad bad
Happiness was just a fad fad
The serotonin highs keep fallin' down
I'm in my head head
Overthinking everything thing
Swimming in my thoughts don't let me drown

Every time I need a pick
Me up
You hit
Me up
One hit
Is enough

You got my head above the clouds
My feet up off the ground
And I'm not comin' down down down down
Got my speakers bumping loud
I'm feelin' every sound
And I won't turn em down down down
And I'm not coming down down down down

I'm in my bag bag
Like, new Chanel I'm poppin tag tags
Yea I can see both sides with you around
We're livin' fast fast
And baby even if we crash crash
You gas me up when I'm breakin down

Every time I need a pick
Me up
You hit
Me up
One hit
Is enough

You got my head above the clouds
My feet up off the ground
And I'm not comin' down down down down
Got my speakers bumping loud
I'm feelin' every sound
And I won't turn em down down down

And I'm not coming down down down down
And I'm not coming down down down down
