

Kalan Porter, How Many Roads

All my chips are on the table
This time around
No turning back when I loose
No regrets,
No promises
Just a passionate heart
To pull me through

How many roads 'till I find my way
How many roads if I leave today
How many roads from the one that I've always known
How many roads until I find my way home

Long days,
Try to make a change
Made a lot of choices in my life
Some right,
Some wrong
But the best is yet to come

How many roads 'till I find my way
How many roads if I leave today
How many roads from the one that I've always known
How many roads until I find my way home

I've come so far
Life is one big road
Which way to turn
Until I find my way home
I'm on my way
No matter what it takes
I know I'll find my way home

'Till I find my way
How many roads
How many roads
How many roads
How many roads
How many roads
How many roads 'till I find my way home
How many roads
How many roads
How many roads
How many roads until I find my way home
