## Kalan Porter, How Many Roads

All my chips are on the table This time around No turning back when I loose No regrets, No promises Just a passionate heart To pull me through

How many roads 'till I find my way How many roads if I leave today How many roads from the one that I've always known How many roads until I find my way home

Long days, Try to make a change Made a lot of choices in my life Some right, Some wrong But the best is yet to come

How many roads 'till I find my way How many roads if I leave today How many roads from the one that I've always known How many roads until I find my way home

I've come so far Life is one big road Which way to turn Until I find my way home I'm on my way No matter what it takes I know I'll find my way home

'Till I find my way
How many roads
How many roads
