

Kalwi & Remi, On Your Side

I've found you
I saw your smile
So bright
The world was there
The world was you

I want to tell you more
I got your eye in your ...
You was the sign for
Me and you
We've found the same we knew
Now you're main

We've in the dream through the night
I never let you cry again
We've in the dream
Don't say goodbye
You know, the time is on your side
Time is on your side
You should know Time is on your side
We both know the Time is on your side
