## KARI, Time

Part me wants move on move on .. full of poison always have try to feel something something part of me don't now what I am fighting for

I can hear a cloud of voices

try to feel something something feeling like ...

give me more time Give me more time, then I'll know. Give me more time give me more time My heart is slow /5x

. . .

singing best ... close my eyes looking for something

give me more time Give me more time, then I'll know. Give me more time give me more time My heart is slow /5x
