

Kasabian, bow

What is this?
You feel in love?
When it's over
Understand me when I tell you
That we just can't keep on holdin' on to this

I know your friends
They are seein' that I'm no good
Are you kiddin'?
This is menthol cause you know what we had
Was broken from the start

We live and standing here
I'm double and up the feeling
The harder is the worse you try
But this love has got to stop

Take a bow and say goodbye
And let the hours passing by
That you get to feel so high
And it's over, it's all over now

What is this?
You feel in love?
When it's over
Understand, nothing lasts forever

And now I say to you
As loud as the silence
We just can't carry on
In the morning I'll be gone

Take a bow and say goodbye
And let the hours passing by
Now you get to feel so high
And it's over, it's all over now
Take a bow and close your eyes
For a moment fantasies
That you get to feel like, get to feel like
It's all over now

You tell me that I'm free
So I can see you over
Not my tears, this is the end
If I don't kiss and dance

Take a bow and close your eyes
For a moment fantasies
Now you get to feel like, get to feel like
It's all over now, it's all over now
It's all over now, it's all over now
