

Kasia Dereń, Count On Me

it's like they say true love last forever
tomorrow will find ourselves In time
I wanna have you to find our never
hold on /3x
every day you connect with another
completely last with humankind
makes your dreams fade away
hold on /3x

you can count on me
when I say you're gonna make it
you can count on me
read my mind
you can count on me
you can count on me
I am waiting
you can
you can count on me
you can count on me
when I say you're gonna make it
you can count on me
read my mind
you can count on me
you can count on me
I am waiting
you can
you can count on me
on me
on me
you can count,
you can count on me

..we can simply hide
one moment I picture us with each other
hold on /3x
with this new light I have rediscovered
shining from behind
feel that inner power
hold on /3x

you can count on me
when I say you're gonna make it
you can count on me
read my mind
you can count on me
you can count on me
I am waiting
you can
you can count on me
you can count on me
when I say you're gonna make it
you can count on me
read my mind
you can count on me
you can count on me
I am waiting
you can
you can count on me
on me
on me
you can count,
you can count on me
