

# Kasia Moś, Wild Eyes (feat. Norma John)

Silence, silence /x2

I've been everywhere  
looking for a reason to stay

Honey, by the fear  
never finding may way

It's been raining for days now  
My darling  
I wish I could stop the sky from falling

I've been everywhere  
looking for a reason to stay

Now, I'm standing in silence, silence  
Now, I'm standing in silence, silence

Try to find if this still is spark underneath  
I'm burning on  
like a cigarette between your teeth

Never (...)  
I can barely see you staring at me

Try to find if this still is spark underneath

Now, I'm standing in silence, silence  
Now, I'm standing in silence, silence

Close in  
Wild Eyes  
Close in  
Wild Eyes  
/x2

Now, I'm standing in silence, silence  
Now, I'm standing in silence, silence
