

Kasia Stankiewicz, Lucy

look at these girls
they ain't watching you
waiting to ring the bell
look at these boys
they are fumbling
I'm just asking- do you wanna be brave?

I feel they watch
I don't give a damn
everyone plays their game
someone'll catch you F.O.
hope there's no one breaking the fall

a big guy
but you falling from high
make you feel good
just to save you from shy
if you offer love
when away from the night
I'll make you see, do we..?
I feel all right

take it feel my precious pain
you'll be waiting for the rain

and I'm gonna see ya again
I'm offering only love
and I'm gonna see ya
would you raise above
would you fade to grey

a big guy
but you falling from high
make you feel good
just to save you from shy
if you offer love
when away from the night
I'll make you see, do we..?
I feel all right

take it feel my precious pain
hell I'm gonna watch you sweat
you'll be waiting for the rain
hell I'm gonna watch you sweat

It's good to see ya
don't wanna be ya
'cos you too sombre
I got your number
you feel like going home
off to your slumber

dancing all night long
stuck here all night long
dancing all night long
stuck here all night long

12 inch speakers
platform sneakers
don't play tunes from your phone

dancing all night long
till the break of dawn
she just turns it up

the song won't stop
the floorboard's gonna groan
dancing all night long
there's no need to moan
'cos I've got 12 inch speakers
platform sneakers
don't play tunes through phone
dancing all night long
till the break of dawn
she just turns it up
the song won't stop
the floorboard's gonna groan.
