

Kaskade x Deadmau5, Beneath With Me (feat. Sk

Can't escape
All the fire burning bright
Water still is rising
Throughout the long nights

Come on, take my hand
And focus on the light down at the end
Say words to comfort me
We still have time for home,
That's all we need
Beneath with me /3x

Morning grace
Enemies have come together
Miles have gone silent
In the arms of strangers

Come on, take my hand
And focus on the light down at the end
Say words to comfort me
We still have time for home,
That's all we need
Beneath with me /3x
