

# Kat DeLuna, Only One

promises that weren't met  
i don;t wanna regret  
I just wanna forget with you

way that I've never felt  
so I think I could bet  
it's not all in my head for you

show me what  
it's like to hold you  
it's lile to know you  
it's like to love you  
I know you want to  
say we won't fall through  
lve me like you do

like I ma the only one  
only way you run  
you could make it know  
wehnen we're all alone  
why i'm the only one  
only way you run  
you could make it know  
when we're all alone  
I'm the only one

waiting up for love  
think it's been long enough  
you should go n and just set me free  
say it's me that you want  
I been calling your bluff  
got me falling so dangerously

show me what  
it's like to hold you  
it's lile to know you  
it's like to love you  
I know you want to  
say we won't fall through  
lve me like you do

like I ma the only one  
only way you run  
you could make it know  
wehnen we're all alone  
why i'm the only one  
only way you run  
you could make it know  
when we're all alone  
I'm the only one
