Kavana, Work

don't try to understand the way i'm feeling now and don't misread my words cos what i say is how i see our future baby, no question or no maybe a change has gotta come some day

the way it was before, can't carry on no more this one way love affair i know you don't seem to care, now tell me if i'm wrong for lovin to be strong you got to

chorus:

work, just to make it work you gotta work to make it work nothing comes so easy, go to work, just to make it work you gotta work to make it work yeh, yeh

i saw it long ago, i realised you'd never show me the way you feel inside, you'd always chose to hide we got a future, no question or no maybe a chance is gonna come right away

i gotta make you see it's the only way to be no more one way love affair and now you know i really care the time has come to pass if love is gonna last

chorus

if you could reach an understanding you'd see that it's much better that livin' out lives on our own i know it seems old-fashioned, but baby that's no reason to run away from love cos there's no-one above you

chorus to fade
