

# Kelly Rowland, Hitman

Sinnerman see me real soon  
Cinnamon all on my lips from you  
I get a heatwave feeling like JUNE  
Tell me what else am i supposed to do

It's too perilous take a taste at a time  
Confidence you don't waste no time  
I need it express  
Rush that to me  
Put it down, how it's supposed to be

It's like speed dial  
Hit one button  
On my mind all the time  
Got my nose open  
And now i want it to myself  
Like a gold fish  
Can't anybody get it  
Keep it quiet  
Hush, hush

It's like lemme hit my hitman  
Need it one time  
When i get them on the line  
Say beat it up

He come to murder  
He come to murder  
He come to serve up  
He come to serve up

I just hit my hitman  
Know it's all mine  
He'll be waiting outside  
Come beat it up
