

Kesha, Eat The Acid

You don't wanna be changed like it changed me
You don't wanna be changed like it changed me
You don't wanna be changed like it changed me
You don't wanna be changed like it changed me

Been dodging gods I didn't want
I'd gotten used to being lost
I never felt like I belonged
Turns out my mama wasn't wrong

You said don't ever eat the acid
If you don't wanna to be changed like it changed me
You said all the edges got so jagged now
everything you saw then can't be unseen
Last night I saw it all
Last night I talked to God

You don't wanna be changed like it changed me
You don't wanna be changed like it changed me
You don't wanna be changed like it changed me
You don't wanna be changed like it changed me

I swear to God I closed my eyes
I heard a voice inside my mind
The universe said now's your time
And told me everything's alright

You said don't ever eat the acid if
You don't want to be changed like it changed me
You said all the edges got so jagged now
Everything you saw then can't be unseen
You said don't ever eat the acid if
You don't want to be changed like it changed me
You said all the edges got so jagged now
Everything you saw then can't be unseen
Last night I saw it all
Last night I talked to God

You don't want to be changed like it changed me
You don't want to be changed like it changed me

I searched for answers all my life
Dead in the dark, I saw the light
I am the one that I've been fighting the whole time
Hate has no place in the divine

You said don't ever eat the acid if
You don't want to be changed like it changed me
You said all the edges got so jagged now
Everything you saw then can't be unseen
You said that the Universe is magic
Just open up your eyes the signs are waiting
You said don't ever eat the acid if
you don't want to be changed like it changed me
Last night I saw it all
Last night I talked to God

You don't want to be changed like it changed me
You don't want to be changed like it changed me
You don't want to be changed like it changed me
You don't want to be changed like it changed me
