But you still be in the line  
I ain't even on the list, you can see me on flyer  
Reason why I got yo girl on my fly, I swear to God  
She be singing in the club like Mariah  
Man them bitches be like

What you stop and flow

Sayin once you seen enough flow  
Round two, go and take it down boo  
Don't be afraid though you is bout that life  
Man them bitches be like  
She might see me later on  
Baby andale, yeah, fuck we waitin for now?  
You know where the door is, say you got class  
We can take it where yo dorm is, over or a cab baby  
Don't think that she drive, getting harder to disguise  
If we runnin out of time, I think you should decide  
If you comin for the ride  
Try to make it home before the sun is on the rise  
Get the vibe, we go
