

# King, (KFAD) Wait for no-one

Wait for no one  
I don't wait for no one and I'm not going  
to start for you  
I don't wait for no one never seen any reason why I should  
So once more Summers through  
The rain pours so what's new?  
On comers everywhere holidays end  
leaving - vacant stares  
So what are they waiting for  
The youth youth youth  
What are they dreaming of  
Do they want to be kings for a day  
Snip snip the memories shorn  
Onto the barbers floor  
Reflections off the wall  
Show kings wishin' for one day more  
And I don't want no one day reigh  
For a one day reign would cloud over  
my campaign  
The sun shines every day
