

Kiss, Keep Me Comin'

I know what you're like, you're not sleepin' at night
I know you're losing control, I know your plans
Where you're keeping your hands, I know it's taking its toll
Sweet little innocent girl, making your way in this world
Something you're feeling tonight
tells you what's wrong and what's right

Chorus:

You gotta keep me comin' (keep me comin'),
keep me comin' (keep me comin')
You gotta keep me comin' (keep me comin'),
keep me comin' babe (keep me comin')
Hands on my shoulders now, you're getting bolder,
your fears are slipping away
Each little bite lets me know that you're ripe,
you're thinking maybe you'll stay
ay
Now that you're burning to know,
how far you're willing to go
Now that it's under your skin, now that you're lettin' me in

chorus repeats 2x

Ooh yeah, comin', comin'

Ooh yeah, right here, right now
chorus repeats out...
