

Klaas, Calavera

I wanna see how you're gonna move your body tonight
Give me your taste and i give you what I got, lets get tight

I wanna watch you shake it
shake it until you're naked
If I move on then you wanna move foward too
let's get incredible, like we are young rebels

We gotta, we gotta
We gotta do it like it's Calavera
Cause when we do it everything is better
Come on let's do it like it's Calavera
Cause when we do it everything is better, better
Calaveraaaaa
