

Klingande, Riva (Restart the game) Feat. Broken

You've tasted the pain of loosing
Someone who broke her chains don't even
Look back at these wasted moments cause
Future ain't what it used to be,
She is not to blame you shook the tree
Fell what should fall
As you could see restart the game
You've tasted the pain of loosing
Someone who broke her chains don't even
Look back at these wasted moments cause
Future ain't what it used to be,
She is not to blame you shook the tree
Fell what should fall
As you could see restart the game

You can't stay for years
Crying all your tears
Move your freaking ass
Forget about the past
You are not out of mind
Down this road you'll find
Answers to your pain
Just walk to make it end

You've tasted the pain of loosing
Someone who broke her chains don't even
Look back at these wasted moments cause
Future ain't what it used to be,
She is not to blame you shook the tree
Fell what should fall
As you could see restart the game

You've tasted the pain of loosing
