

# Kooks, Tea & Biscuits

I'd like to take you out, for tea and for biscuits,  
And show you the city, as I see her, how I need her,  
She is my beauty queen and my lover,  
Yes I love her,  
She takes me where I want to go,

And out of my blue sky eyes, I see a blue you,  
And out of my blue sky eyes, I see a blue you,

I'd like to take her out for tea, I hope she likes biscuits,  
She lies in my hands,  
Moving now, I said moving,  
Let's us love to be alone,  
Oh and I got no love to give,  
Still we sit there and I'm high,

And out of my blue sky eyes, I see a blue she,  
And out of my blue sky eyes, I see a blue she.
