

Kygo, Again (ft. Maroon 5)

Anywhere we can go
Anywhere we can go
And so you and me

We'll kiss the sky and now
Just run away with me, darling
We'll get real lost, we'll get real lost again
Just run away with me, darling
We'll get real lost, we'll get real lost again
Just run away with me darling

just run away my with darling
will get real lost, will get real lost again
just run away my with darling

will get real lost, will get real lost again

anywhere we can go
when the sun last forever
and so you and me
will kiss the sky and now
come lost with me
come lost with me
come lost with me
come lost with me
just run away my with darling
will get real lost, will get real lost again
just run away with my darling
will get real lost, will get real lost again
just run away with my darling
just run away with my darling
will get real lost, will get real lost again
just run away with my darling
will get real lost, will get real lost again
anywhere we can go
when the sun last forever
and so you and me
will kiss the sky and now
