

# Kygo, Never Let You Go (feat. John Newman)

Emotions like summer  
Wake up at a blue sky  
And that's how I hold you  
As we watched the sunrise

Cuz this is amazing  
Running wild we do  
My thoughts are hazy  
This may be way too soon

But I won't ever let you go  
never let you go  
at all  
But I won't ever let you go  
never let you go  
at all

And I won't ever let you go  
never let you go  
at all  
But I won't ever let you go  
never let you go  
at all

I'm so lost in these simmer nights  
so lost in your crystal light  
and even when this night is day  
I won't regret the words I'm saying

But I won't ever let you go  
never let you go  
at all  
But I won't ever let you go  
never let you go  
at all

And I won't ever let you go  
never let you go  
at all  
But I won't ever let you go  
never let you go  
at all

I will never let you go  
never let you go  
I will always keep hope!
