## Kygo, This Town (ft. Sasha Sloan)

all of my friends are settling down they're all kids but they're married now let's follow the light let's follow the crowd baby we got to get out let's get out of this town

I want an ocean view, somewhere as long as I'm next to you, I don't care I don't wanna live my life in circles I just wanna find an empty road let's get away from here, let's go

all of my friends are settling down they're all kids but they're married now let's follow the light let's follow the crowd baby we got to get out let's get out of this town

nothing ever changes here, I know another day, another year, same old I don't wanna live my life in circles I just wanna find an empty road let's get away from here, let's go

all of my friends are settling down they're all kids but they're married now let's follow the light let's follow the crowd baby we got to get out let's get out of this town

let's get out of this town
