

Kylie Minogue, Crystalize

Everything is giving me and you don't know what you gonna do
When every one is up and go
And you will go up and getting through

When you don't know if you should go, I'll stay
You only have to turn my way
Baby you can have all the sky, just come up deep into my eyes
crystalize, so wrong the rollie from the love that gonna be alright
And you are I crystalize, crystalize, crystalize.

Another we, suddenly they gonna take ourselves away
What you to know I won't let go
Baby I got you all the way
When you don't know if you should go, I'll stay
You only have to turn my way
Baby you can have all the sky, just come up deep into my eyes
crystalize, so wrong the rollie from the love that gonna be alright
And you are I crystalize, crystalize, crystalize.

In the dark babe, when it's all a mess,
And when we swimming through a sea of broken promises
You can find me shining like a laze of be
Feel the light

Baby you can have all the sky, just come up deep into my eyes
crystalize, so wrong the rollie from the love that's gonna be alright
And you are I crystalize, crystalize, crystalize.
