

Kylie Minogue, Stop Me from Falling (feat. Gente

Somehow we're always been together
but never got together
I never felt the pressure till now

there's something in the air
I'm here and you just there
I can't pretend that I don't care

one day I might get it right
I might ready but tonight
caution, caution amber light
stuck can't get you off my mind

Don't know how, and I don't know where
but we're becoming more than friends
getting closer to the edge
stop me from falling

shoulda seen the warning signs
no I'm running out of time
kinda wanna cross the line
stop me from falling

for you /2x
stop me from falling
/2x

One risk for laying on your shoulder
when I was felling colder
and now I can't get over
one kiss a dangerous situation
I'm lost in hesitation
my heart's little shaken

one day I might get it right
I might ready but tonight
caution, caution amber light
stuck can't get you off my mind

Don't know how, and I don't know where
but we're becoming more than friends
getting closer to the edge
stop me from falling

shoulda seen the warning signs
no I'm running out of time
kinda wanna cross the line
stop me from falling

for you /2x
stop me from falling
/2x

Don't know how, and I don't know where
but we're becoming more than friends
getting closer to the edge
stop me from falling

shoulda seen the warning signs
no I'm running out of time
kinda wanna cross the line
stop me from falling

for you /2x

stop me from falling
/2x
