Shake it

Just in time
You came around, came around, came around
Love me overtime
You do, you do
Everyone, Everyone needs that soemone
Brighter than the sun
They do

I don't care what you call me
I do what i do for me
Pull me into the world
Shine like diamonds and perls
I don;r care what you call me
Feel your wave like teunami
Pull me into your heart
Shake me out of the dark

Shake it like that
Shake it like that
Baby just Shake it away
Show me that love everyday

Shake it like that
Shake it like that
Baby just Shake it away
Show me that love everyday
Shake it like that

Just in time
You came around, came around, came around
Love me overtime
You do, you do
Everyone, Everyone needs that soemone
