

Labrinth, Something's Got To Give

you know that time never sleeps
keep one eye open like
I've got my head full of dreams
all shattered and broke like
noever chose love, it chose me
but I am stil there making stones bleed
so I'll go on swimming up stream
till I come tumbling down

when the working don't pay
when your live on faith
something's got to give
something's got to give
when you giving your all
when it's coming up short
something's got to give
something's got to give

gotta give a little more
yes
when the going gets tough
gotta give a little more
yes
in the name of the father

I've been caught in the red
needing the breath of life
but I came back from the dead
diamond like, golden like

when the working don't pay
when your live on faith
something's got to give
something's got to give
when you giving your all
when it's coming up short
something's got to give
something's got to give
