

# Lady Violet, Inside

And we can live in a beautiful world  
Hide away under peaceful skies  
We can survive on time and a word  
Feel the nights passing by  
Inside and outside...  
Is it your alluring way  
Could you always drown the fire  
Keep a check on all you feel  
Keep a hold on your desire  
But I feel there's something new  
And it's lying in your eyes  
There's a shudder running through you  
Now I realise  
Inside turning to outside  
The feeling you can't hide  
Is touching a high-light in your eyes  
Inside turning to outside  
It's gonna be alright  
It's runnin' a high for you and I  
Inside turning to outside  
The feeling you can't hide  
Is touching a high-light in your eyes  
Inside turning to outside  
It's gonna be alright  
It's runnin' a high for you and I  
Like a shadow of yourself  
Like a spirit in the air  
Looking desperately for help  
You've been looking everywhere  
My heart is beating fast  
Blue eyes are locked on mine  
A vision flashes past  
Moving me in time  
Inside turning to outside  
The feeling you can't hide  
Is touching a high-light in your eyes  
Inside turning to outside  
It's gonna be alright  
It's runnin' a high for you and I  
Inside turning to outside  
The feeling you can't hide  
Is touching a high-light in your eyes  
Inside turning to outside  
It's gonna be alright  
It's runnin' a high for you and I  
And we can live in a beautiful world  
Hide away under peaceful skies  
We can survive on time and a word  
Feel the nights passing by
