

Lagwagon, Jimmy Johnson

I remember well
them holding him down
silent honor to his torture
tortures me now
pound in the mold
forth the outside space
why did they put jimmy johnson
in a place he didn't belong
in some new school he might find others just like him
obviously he's retarded

(look at your peers)

look at what they see
focus on an easy target
torment the freak
one golden rule: children are cruel
no one here's poor jimmy johnson
cry when the kids are rotten

jimmy make us proud
jimmy johnson a martyr and our only son
so sorry please forgive us for all that we've done
we thought it would be best for you
if you could coexist
we had to put you to the test
