

# Lake Of Tears, Come Night I Reign

Come night comes shadows to your side  
Come night comes every tear you've cried  
Come night so comes your time to see

Come night comes hatred to my heart  
Come night comes healing of my scars  
Come night so comes my time to see

Come night I'm there again  
Come night, come night I reign

Beware, for the night will find you  
Beware, for I am there behind you, I say

Come night comes all those things my dear  
Come night comes all those things you fear  
Come night so comes my time to smile

Come night I'm there again  
Come night, come night I reign

Beware, for the night will find you  
Beware, for I am there behind you, I say
