

Le Tigre, Phanta

4 months + 8 days
Been waiting here
Transporter broken
Horizon's clear

(DAY ONE)
No vegetation
Blips on my screen
Whatever was here
Has been disappeared

Now here's alright [x2]

(DAY TWO)
Wait tower
Radar's going off
I see a small creature
Who can barely walk

My data says "large"
But what I see is small
Text reads "Big Danger"
But this just looks tired

Now here's alright [x2]

(DAY THREE)
Come in tower
All our data's wrong
Research inconsistent
We misread it all

There was no monster
And what's left is near dead
Control killed a phantom
From inside their heads

Nowhere's alright [x4]
