

Lemon, Stay With Me

Stay with me

Lemon

Everything gets turned around
I am king of lost and found
Surely you want more?

It's funny how we always lose
Put no bet on what we choose
Who said we need more?

Stay with me, stay with me
Stay my fallen beauty queen
Stay with me, stay with me
Stay my fallen beauty queen

This is all beyond control
Murder on our frozen souls
Maybe you want more

No more secrets to disclose
Draw the curtains, kill the phone
Maybe we want more?

Stay with me, stay with me
Stay my fallen beauty queen
Stay with me, stay with me
Stay my fallen beauty

If you care, then just don't let me bleed
If you care, if you care

Stay with me, stay with me
Stay my fallen beauty queen
Stay with me, stay with me
Stay my fallen beauty
