

# Lenny Kravitz, Strut

Baby do you know who I think you are?  
You are a dream, you are a star  
So let it out, bringing home a scene  
And show the world exactly what you mean

Baby strut  
Let me see you walk, strut  
Let your body talk, strut  
Show me how you work, strut

When you lay it down, how you hurt me so  
No need to stop, baby go, go, go  
You are a freak of nature by the way you move  
Just be yourself, you got nothing to prove

Baby strut  
Let me see you walk, strut  
Let your body talk, strut  
Show me how you work  
This is a chance for you to go berserk baby

Strut, strut, strut, strut

When you feel the need, the need to express  
Whether it be pain or happiness  
Take it to the street, cause it is your stage  
Just be yourself, and bust out of your cage

Baby strut  
Let me see you walk, strut  
Let your body talk, strut  
Let me see you work, strut, strut

Let me see you walk, strut  
Let your body talk, strut  
Let me see you work  
This is your chance for you to go berserk  
Baby strut
