

Lil Peep, Awful Things (ft. Lil Tracy)

bother me, tell me awful things
you know I love it when you do that
helps me get through this without you
bother me, tell me awful things
you know I love it when you do that
helps me get through this without you

bother me
tell me awful things
you know I love it
when you move that on me
love it
when you move that on me

you like attention
I find it obvious
she makes it obvious for me
she feels the tension
it's just the 2 of us
it's just the 2 of us tonight

burn me down
till I'm nothing but memories
I get it, girl /3x
/2x

bother me, tell me awful things
you know I love it when you do that
helps me get through this without you

bother me
tell me awful things
you know I love it
when you move that on me
love it
when you move that on me

don't you turn
your back on me
let your teardrops
fall on me
speeding away
the city in the rear view
heart racing whenever
I'm near you
goth boy jumping on stage
carry me away
carry me away
burn me down
'til there's nothing left
I will scream your name
with my last breath
take off your favorite dress
lay your head on my chest
diamonds, rubys and gems
you can have all of them

bother me
tell me awful things
you know I love it
when you move that on me
love it
when you move that on me
