

# Lil Peep, Awful Things (ft. Lil Tracy)

bother me, tell me awful things  
you know I love it when you do that  
helps me get through this without you  
bother me, tell me awful things  
you know I love it when you do that  
helps me get through this without you

bother me  
tell me awful things  
you know I love it  
when you move that on me  
love it  
when you move that on me

you like attention  
I find it obvious  
she makes it obvious for me  
she feels the tension  
it's just the 2 of us  
it's just the 2 of us tonight

burn me down  
till I'm nothing but memories  
I get it, girl /3x  
/2x

bother me, tell me awful things  
you know I love it when you do that  
helps me get through this without you

bother me  
tell me awful things  
you know I love it  
when you move that on me  
love it  
when you move that on me

don't you turn  
your back on me  
let your teardrops  
fall on me  
speeding away  
the city in the rear view  
heart racing whenever  
I'm near you  
goth boy jumping on stage  
carry me away  
carry me away  
burn me down  
'til there's nothing left  
I will scream your name  
with my last breath  
take off your favorite dress  
lay your head on my chest  
diamonds, rubys and gems  
you can have all of them

bother me  
tell me awful things  
you know I love it  
when you move that on me  
love it  
when you move that on me
