

Lil Peep, hellboy

You don't even know what I've been through
what I've been through
you don't gotta like me
ya bitch do
bitch do
blowin' up my phone like
I miss you
Like I miss you
You know i love
By the way i kiss you
You don't even know what I've been through
what I've been through
you don't gotta like me
ya bitch do
bitch do
blowin' up my phone like
I miss you
Like I miss you
You know i love
By the way i kiss you

Leave me to bleed
I know i got you on your knees
But somethin keeps on tellin me
It keeps on tellin me
Peep, leave it alone
I am good on my own
Baby, i m cold, back on the road
Show after show
Fuckin' h after ho
I swear it gets so lonely sometimes
Please just hold me on time
Fuck these hes and fuck life
I've been waitin' here all damn night
Not one cal lor text from you
You're the same as my ex, fuck you

You don't even know what I've been through
what I've been through
you don't gotta like me
ya bitch do
bitch do
blowin' up my phone like
I miss you
Like I miss you
You know i love
By the way i kiss you
You don't even know what I've been through
what I've been through
you don't gotta like me
ya bitch do
bitch do
blowin' up my phone like
I miss you
Like I miss you
You know i love
By the way i kiss you
