

Lil Peep, Right here (ft. Horse Head)

Baby, how you doing?
I know you're not doing the best
But i am here
I wull always be here

Tell me if you need me
And cal me idf you feeling alone
Cause i am here
I am always right here

Tell me that i am dmb
I love to get numb
I know that i am youbng
But u amn still right here

Baby, I'm leaving,
I'm not taking anything but you
Picture us escaping
In the background of the photo I see you
I remember the time,
I remember hearts sewn together with twine
Just remember that I am still right here
And if you doubt me, that's just fine
And when it comes clear,
I will be waiting right here
Just tell me if you need me
And I will meet you right there
