

Lil' Sammie, Hero

Many people have their own
Definition for a hero
Mine just happen to be
The ones that brought me
Into this world
So this song is dedicated to you
Dear Mom

Gave to me life, heard my cries
Curiously looked in my eyes
All those things you said to me
I'd be a doctor, lawyer, scientist
Conversations from the heart
Funny how you tolerated me
There are times when you stood for me
But you're always there when I need
The little things you do
God has blessed me
You're my hero, my hero lives in you

1- You're my hero
You don't need an S across your chest
You're my hero
You know you can move mountains by yourself
But still you're my hero

The strongest person that I found
Can leap a building in a single bound
But know you're my hero

Lately after months been gone
Spending time with you alone
Basketball practice you went with me
Football and those baseball games
You wanted me to play
But still you helped me be
The singer that's in me ooh daddy
There were time you stood for me
But you're always there when I need
The little things you do
God has blessed me
You are my hero, you are my hero
My hero, my hero lives in you daddy

Repeat 1 (2x)

There were times when I would sit down
And talk to you
Yes there were times oh yeah
Sometimes I miss those days
