

Limp, Atom Bomb

I've got an atom bomb
So I'm never wrong
Don't push too hard
I said I'm never wrong

I've got a thousand fears
You will lend an ear
It sounds unfair
'Cause I'm an easy scare

Let's settle the score
And shatter the sky
Such a beautiful sight
come even this life

Let's settle the score
And shatter the sky
I'll shatter, I'll shatter

I swim the shallow end
searching deep within
To save us all
To this there is no end

I'll make the planet shake
Based on your mistake
you'll take the fall
And then you'll kill us all

So shut in, can't get out,
these feelings, can't let out
