

# Lindsey Stirling, We Are Giants (feat. Dia Frampton)

Do you feel like you're second-hand?  
Do you feel you're afraid to stand alone?  
Cut away every safety net  
Live your life so you won't regret the road

Feels like you, just standing there so small  
Just the space between the stars  
Don't be afraid to risk it all  
'Cause we are we are

We are giants  
We are giants  
We are giants  
We are we are  
We are giants  
We are giants  
We are giants  
We are we are

Raise your flag; Let your voice be heard  
Put your heart into every word you say  
All your failures' a cornerstone  
Build a house with the things you've thrown away

Feels like you, just standing there so small  
Just the space between the stars  
Don't be afraid to risk it all  
'Cause we are we are

We are giants  
We are giants  
We are giants  
We are we are  
We are giants  
We are giants  
We are giants  
We are we are

Feels like you, just standing there so small  
Just the space between the stars  
Don't be afraid to risk it all  
'Cause we are we are

We are giants  
We are giants  
We are giants  
We are we are  
We are giants  
We are giants  
We are giants  
We are we are
