

# Linkin Park, In This World

You are always right beside me  
Never leaving your post you always find me in the end  
And never stop to picture about the past  
Bided my name from day one it never last  
I thought so, suspicious from the start  
My eyes covered, a blind-folded lost soul  
Gotta find my way, through the mystery  
Time's up, and it's time to pay  
Even though I once believed our love was neverending  
I had to face the fact you ruined it all  
You can't see me  
Lost in the shadows till you're gone  
Waiting just to see you cry (I'll be right behind you)  
You can't find me  
No matter where you look  
I won't be around  
I'll be right behind you  
(I'll be right behind, right behind you)  
None of us wanted it to be this way  
I would be, trapped in enemy land if I'd stay  
like a ticking bomb, about to blow any time  
You are bad news, and i dont wanna cross the line  
You see, this world don't need a fool like you  
But I'm planing to stay I got lots to do  
So before you close your eyes and  
Turn off the light  
Take a look again  
To find where I die  
Even though I once believed our love was neverending  
I had to face the fact you ruined it all  
You can't see me  
Lost in the shadows till you're gone  
Waiting just to see you cry (I'll be right behind you)  
You can't find me  
No matter where you look  
I won't be around  
I'll be right behind you  
(I'll be right behind, right behind you)  
Come on, come on  
Right behind you  
None of us wanted it to be this way  
Like a ticking bomb, about to blow anytime  
You are bad news, and i dont wanna cross the line  
This world don't need a fool like you  
Before you close your eyes and  
Turn off the light  
Take a look again  
To find where I die  
You can't see me  
Lost in the shadows till you're gone  
Waiting just to see you cry (I'll be right behind you)  
You can't find me  
No matter where you look  
I won't be around  
I'll be right behind you  
(I'll be right behind, right behind you)  
You can't see me  
Lost in the shadows till you're gone  
Waiting just to see you cry (I'll be right behind you)  
You can't find me  
No matter where you look  
I won't be around  
I'll be right behind you  
(I'll be right behind, right behind you)
