Lita Ford, Dressed To Kill

You're dressed to kill

Come a little closer, so I can look you in your eyes So I can see what I been missing, so I can see through the disguise You're dressed to kill

You got me in the sight of your gun, you're dressed to kill

Sell your soul to rock and roll The only thing that thrills you Evil grins as night begins Gonna rock until it kills you Learn to live fast Learn to die young Life's one big chase You're caught in the race You're never gonna slow down

You're dressed to kill Kill me baby You're never gonna let go You're dressed to kill You kill me baby You're dressed to kill

Wake the dead with loud guitars Screamin' in your head An angel sings, fulfills the dreams That are dancin' in your bed Live for the danger Die for the fun Life's one big chase You're caught in the race You're never gonna slow down

You're dressed to kill Kill me baby You're never gonna let go You're dressed to kill You kill me baby You're dressed to kill

You're dressed to kill

You're dressed to kill

Ahhhh, yeah
Kill me baby
You're dressed to kill
You kill me baby
You're dressed to kill
You're dressed to kill... etc.
