

# Lita Ford, I Can't Stand It

I still remember everything you said  
I'll love ya tonight but don't get uptight, no  
Then I knew I'd never see you again  
I want to make up with you but what can I do?

I can't stand it  
Tonight you're here but tomorrow you're gone, oh, no  
I can't stand it  
The love that was real, got wasted away, oh, it's gone

I still remember the look in your eyes  
Well, I wish I could fly, you make me cry  
'Cause you were somethin' that I never had  
And I never will but still I keep dreamin' of...

I can't stand it  
Tonight you're here but tomorrow you're gone, oh, no  
I can't stand it  
The love that was real, got wasted away, oh, it's gone

I will wait forever, just to have you one more time  
'Cause it's the only way, I can't ever keep you out of my mind

I can't stand it  
I can't stand it  
I can't stand it  
You know there's no other way  
I can't stand it  
You know I can't take it no more...
