

# Lita Ford, If You Can't Live With It

I know life gets rough  
Oh, sometimes I cry  
But you gotta try a little harder  
When you're wrong!  
Sometimes I got no friends  
Well, that just kinda makes my heart a mess  
So I just slap myself in the face and say  
It's alright, I still got my guitar

Everyone knows love's a game  
Playin' to win but it won't turn out that way  
So I just stay at home and have another beer

But shit, you can't live with it  
Then try and live without it  
If you can't live with it  
Then try and live without it

Don't you think people are strange?  
They never do what they say, no  
Hanging you up and making life tough  
Don't need to be that way

Don't give me your sympathy  
It's for the devil, baby, not me  
And don't tell me that I'm wrong

See everyone knows love's a game  
Playin' to win but it don't turn out that way  
So I just stay at home and have another beer

'Cause if you can't live with it  
Then try and live without it  
If you can't live with it  
Then try and live without it

Yeah

See everyone knows love's a game  
Playin' to win but it don't turn out that way  
So I just stay at home and have another beer

'Cause if you can't live with it  
Then try and live without it  
If you can't live with it  
Then try and live without it  
If you can't live with it  
Then try and live without it... yeah
