

# Lita Ford, Shot Of Poison

Gotta love for destruction  
Gotta feel for danger tonight  
Hey, Mr. Moonlight wontcha follow me down  
I need the company  
Everybody tells me you're no good  
That's all right with me

Gimme one shot of poison  
A little twist is all I need  
One drop of your sweet poison  
Sets me free  
Come on baby, poison me

Gotta hunger for fatal attraction  
I'm savin' all my passion for you  
I gotta heartbreak habit that I can't kick  
Only you can ease the pain  
I'm a midnight animal tryin' to score  
Before I go insane

Gimme me one shot of poison  
A little twist is all I need  
One drop of your sweet poison  
Sets me free  
One shot of poison  
A little taste of paradise  
One drop of your sweet poison  
Satisfies  
Give me one last kiss before I die

I'm flyin' high  
On your love, tonight, baby

One shot of poison  
A little twist is all I need  
One drop of your sweet poison  
Sets me free  
One shot of poison  
A little taste of paradise  
One drop of your sweet poison  
Satisfies

One shot of poison  
Come on, baby, poison me  
One drop of your sweet poison  
Sets me free  
One shot
